(PDF) Efficacy of Auricular Therapy for Pain Management: A ...

Auriculotherapy-also known as auricular therapy (ear acupuncture) - is a form of alternative medicine based on the idea that the ear is a microsystem, meaning that the entire body is represented on the auricle (or auricula, or pinna - the outer portion of the ear) in a similar fashion to reflexology (zone therapy) and iridology (iridodiagnosis), and that the entire body can be treated by stimulation of the surface of the ear exclusively.

Auriculotherapy

The auricular causative treatment, based on the ACD, substantially increases the efficiency of auricular therapy and immediately reduces patient suffering. 6 Thus, it was imperative to search for a specific auricular visual marker (AVM) in patients with COVID-19.
