Machine Tool Manuals Catalogues Belts Books Accessories Made originally in what used to be "East Germany", by VEB Prazisionsdrehmaschinen (now, Unitech) the Hobbymat MD65 Universal (as it was known in the UK) and BFE vertical milling attachment and stand-alone miller were also marketed in the USA as part of the Prazimat range - and in ...

### Hobbymat MD65 / Prazi SD300 lathe | bazmonaut

The earliest CNC machines — or perhaps the forerunners of the CNC machine — were developed and used in the 1940s and '50s. These machines used a data storage technique known as punched tape. Of course, this technique soon became obsolete, and the systems quickly turned to analog and then digital computer processing methods.
