A bilingual individual, generally, is someone who speaks two languages. An ideal or balanced bilingual speaks each language as proficiently as an educated native speaker. This is often referred to as an ideal type since few people are regarded as being able to reach this standard. Otherwise, a bilingual may be anywhere on a continuum of skills.

Bilingualism/Bilingual education Definition. Bilingualism is the ability to communicate in two different languages. Bilingual education is the use of two different languages in classroom instruction. Description. Languages are learned most readily during the toddler and preschool years and, to a lesser extent, during elementary school. Therefore, children growing up in bilingual homes and/or receiving bilingual education easily acquire both languages.

Alternative Title: bilingual. Bilingualism, Ability to speak two languages. It may be acquired early by children in regions where most adults speak two languages (e.g., French and dialectal German in Alsace). Children may also become bilingual by learning languages in two different social settings; for example, British children in British India learned an Indian language from their nurses and family servants.

## **Bilingualism - Encyclopedia Britannica**

Bilingualism (multilingualism) refers to the coexistence of more than one language system within an individual, as contrasted to monolingualism. The question of how the two languages interact at the cognitive and behavioral levels has been of long-standing interest to psycholinguists as well as to neurologists, clinicians,
