Ford - US Marine Engines

In the 1950s, Ford introduced a three-tier approach to engines, with small, mid-sized, and larger engines aimed at different markets. All of Ford's mainstream V8 engines were replaced by the overhead cam Modular family in the 1990s and the company introduced a new large architecture, the Boss family , for 2010.

List of Ford engines - Wikipedia

All exhaust manis and plumbing hardware are interchangeable. To get to your desired 225+ hp 302 (which is nice because it is lighter) you'd need to go to a 9:1 compression, roller cam, 4 bbl carbed w/ slightly hotter (within marine limits) cam. For the time will come when men will not put up with sound doctrine.

Ford 5.8 351 Windsor Engines - Atlantic Marine Store

The Ford 351 Windsor was first introduced in 1969 and was quite a breakthrough in regards to the ways Ford produced its V8 engines. When Ford introduced the 302 to replace the 289 the engines were very similar and even used the same pistons.. The 351 Windsor was in a league of its own because of its heightened deck block, larger connecting rods and much "beefier" main bearing caps.
