## **Periodic Table Worksheet Answers Use The Following Clues ...**

There are two possible clue lists to use. Please read over both possible clue lists to determine the best fit for your class. The basic clues ask students to find element names, atomic numbers, and average atomic masses directly on the periodic table, and connect the dots. The advanced clue list requires students to interpret the information on the periodic table. To complete the advanced clues, students should be familiar with the following terms and concepts:
